

North Carolina Needs a Strong, Not-for-Profit Blue Cross NC

We support Blue Cross NC in its goal to remain a North Carolina based, fully taxed, not-for-profit organization committed to improving the health and wellbeing of all North Carolinians.

Blue Cross NC has been an important partner with us in creating healthier communities. Their leadership works alongside us, whether it's volunteering in a small town to give health screenings or investing in clinics that improve access to care. Blue Cross NC has also taken steps to make sure North Carolinians have support for their long-term health even when they're not within the walls of a clinic or hospital.

As our state continues to grow, so do our health needs. Our people need more. We trust Blue Cross NC to rapidly deliver new solutions grounded in local experiences. As Blue Cross NC cares for its members and finds innovative solutions that improve the health care ecosystem, it helps cultivate a healthier North Carolina. We stand with Blue Cross NC in their efforts to remain a vital home state not-for-profit entity and a constant partner to community organizations, like us, who serve the people of North Carolina.
